

# Clean Ammonia report

## Supply chain, market status & perspectives

Cyril ASELMAYER, Analyst, CleanTech Dept.  
Fabrice POULIN, Manager CleanTech Dept.

# Table of contents

## 1. Introduction to ammonia

1. Ammonia properties compared
2. Ammonia production pathways
3. Main and secondary uses of ammonia today

## 2. Ammonia key market players over the supply chain

1. Main market players over the ammonia value chain
2. Zoom on key market players

## 3. Grey ammonia production

1. Production by country
2. Exports by country
3. Imports by country

## 4. Decarbonation of ammonia

1. Decarbonation of ammonia production
2. Green ammonia projects
3. Blue ammonia projects
4. Market share for grey, blue and green ammonia
5. Mapping of biggest green and blue ammonia projects

## 5. Cost of ammonia

1. Cost of grey ammonia
2. Cost of green ammonia
3. Cost of blue ammonia
4. Comparison of costs

## 6. Uses for low-carbon ammonia

1. Fertilizers production & perspectives for global fertilizers market
2. Bunker fuel for the maritime sector
3. Commitments to use NH<sub>3</sub> as a bunker fuel in the maritime industry
4. Ammonia as an energy/hydrogen vector

## 7. Transport of NH<sub>3</sub>

1. Ammonia transport
2. Ammonia international trade
3. Ammonia pipelines
4. Ammonia transport by train & truck
5. Ammonia storage
